

Notice to all Residents

March 12, 2020

As you all are aware, health officials are currently taking steps to prevent the introduction and spread of COVID-19 (“Coronavirus”) into communities across the United States. As we continue to learn and get updates about the Corona Pandemic, we are being instructed by HUD and other governing bodies on the current status and processes to observe for everyone’s health and well-being. **FCHA is dedicated to ensure the safety of all staff and residents.**

Everyone should continue promoting everyday disease prevention strategies:

- **If you are sick, stay home from work or school; do not attend group functions or use common areas.**
- **Avoid close contact with those who are already sick.**
- **Cover your nose and mouth when coughing or sneezing with a tissue or the crook of your arm.**
- **Wash your hands often with soap and water for a minimum of 30 seconds.**
- **Avoid touching eyes, nose, or mouth.**
- **Clean unit regularly with disinfectant.**

Effective immediately all FCHA offices will use precautions to prevent the spread of any virus. Office doors will be remained closed and all visitors must use the window access areas, as available, at each office for assistance as needed. It is recommended that you call the office instead of visiting the office.

All maintenance staff must wear gloves when working in any units and unless an emergency exists, refrain from working in units of any residents who may have flu like symptoms.

These precautions are an effort to protect not only our staff but also our communities.

As more information becomes available we will pass it on to you.

Thank you for your understanding and patience. If you have any questions, please contact your site office or the Administration Office or visit our website at www.faycha.org
